## 9b Build Skill

Key each paragraph  
twice.

### A all letters used

gwam 2'

Atlanta, the capital of Georgia, is a gem of the South. It is  
the largest city in the state. Atlanta came into existence because of  
railroads. The original site was selected as the end of the railroad  
to be built northward. Eight years later the area became known as  
Atlanta. Because of the railroad, Atlanta was the key supply center  
for the Confederacy during the Civil War.

One of the better known Atlanta citizens was Margaret  
Mitchell. The book she wrote exquisitely portrays the area during  
the Civil War. During the war, much of the city was destroyed.  
However, a few of the older homes in the city have been restored.  
They are open for the public to view. Today, Atlanta is a modern  
city that provides visitors and residents of the city with a range of  
cultural and sporting events for their enjoyment.
